

HDR Omaha Headquarters Renovation

Lund-Ross led a phased renovation of the Omaha headquarters of HDR, Inc. HDR was founded in Omaha in 1917 and is a global firm that provides architecture, engineering, consulting, and related services.

Lund-Ross remodeled the main entry and ground floor common areas of HDR's headquarters at 84th and Dodge streets. Existing office space on the ground floor was converted into a large new presentation space with new mechanical, electrical, and fire sprinkler systems, a new sound booth, and new finishes. On the second floor, a conference room was renovated into a cafeteria. A new material library was built on the fourth floor, and three executive offices were added on the fifth floor.
